CONTENTS OF VOLUME 8

NUMBER 1

REVIEW ARTICLE

Statistical Thinking and Technique for QSAR and Related Studies. Part II: Specific Methods
M. Stone and P. Jonathan 1

ORIGINAL RESEARCH ARTICLES

Theory of Medium-rank Second Order Calibration with Restricted-Tucker Models
A. K. Smilde, Y.-D. Wang and B. R. Kowalski 21

Bootstrap Accuracy for Non-linear Regression Models
T. Roy 37

Error Analysis of the Generalized Rank Annihilation Method
K. Booksh and B. R. Kowalski 45

Application of a Genetic Algorithm to Feature Selection Under Full Validation Conditions and to Outlier Detection
R. Leardi 65

SHORT COMMUNICATION

A Graphical Technique for Assessing Differences Among a Set of Rankings
D. Hirst and T. Naes 81

SOFTWARE REVIEW 95

MEETING REPORTS 97

CALL FOR PAPERS 101

ANNOUNCEMENT 102

NUMBER 2

REVIEW ARTICLE

The Taguchi Influence on Designed Experiments
R. A. Stone and A. Veevers 103

ORIGINAL RESEARCH ARTICLES

A PLS Kernel Algorithm for Data Sets with Many Variables and Fewer Objects. Part 1: Theory and Algorithm
S. Rännar, F. Lindgren, P. Geladi and S. Wold 111

Compression of *n*th-Order Data Arrays by B-Splines. Part 2: Application to Second-order FT-IR Spectra
B. K. Alsberg, E. Nodland and O. M. Kvalheim 127

Generalized Rank Annihilation Method: I. Derivation of Eigenvalue Problems
N. M. Faber, L. M. C. Buydens and G. Kateman 147

Slowly Converging PARAFAC Sequences: Swamps and Two-factor Degeneracies
B. C. Mitchell and D. S. Burdick 155

SHORT COMMUNICATION
Comments on the PLS Kernel Algorithm
S. de Jong and C. J. F. ter Braak 169

SOFTWARE REVIEW 175

BOOK REVIEW 177

CONFERENCE ANNOUNCEMENT 179

NUMBER 3

ORIGINAL RESEARCH ARTICLES
Generalized Rank Annihilation Method. II: Bias and Variance in the Estimated Eigenvalues
N. M. Faber, L. M. C. Buydens and G. Kateman 181

Identifying Significant Effects in Fractional Factorial Experiments
Ø. Langsrud, M. R. Ellekjaer and T. Naes 205

Non-linear Least Squares Refinement with Constraints. Evaluation through Curve Fitting on Emulated XPS-like Spectra and Application to the Analysis of Carbon Fibres
U. Biader Ceipidor, T. R. I. Cataldi, E. Desimoni and A. M. Salvi 221

BOOK REVIEW 241

NUMBER 4

EDITORIAL 243

ORIGINAL RESEARCH ARTICLES
Direct Distance Measures in Factor Analysis Spectral Resolution
S. L. Neal 245

New Molecular Descriptors for 2D and 3D Structures. Theory
R. Todeschini, M. Lasagni and E. Marengo 263

Generalized Rank Annihilation Method. III: Practical Implementation
N. M. Faber, L. M. C. Buydens and G. Kateman 273

SHORT COMMUNICATION
Comments on the DATa ANalysis (DATAN) Algorithm and Rank Annihilation Factor Analysis for the Analysis of Correlated Spectral Data
K. S. Booksh and B. R. Kowalski 287

BOOK REVIEWS 293

Comments on 'Data Analysis with Minimal Assumptions'
D. J. Cummins 299

Reply to Comments
J. Mandel 301

CORRECTION 303

NUMBER 5

ORIGINAL RESEARCH ARTICLES
Classification of Pyrolysis Mass Spectra of Biological Materials using Convex Cones
M. L. Mavrovouniotis, A. M. Harper and A. I. Ifarraguerri 305

Quantitative Analysis of Latex in Paper Coatings by ATR-FTIR Spectroscopy
N. Dupuy, L. Duponchel, B. Amram, J. P. Huvenne and P. Legrand 333

Interactive Variable Selection (IVS) for PLS. Part 1: Theory and Algorithms
F. Lindgren, P. Geladi, S. Rännar and S. Wold 349

SHORT COMMUNICATION
On the Use of Conditional Maximization in Chemometrics
X. M. Tu, X-L. Meng and M. Pagano 365

BOOK REVIEW 371

ERRATUM 373

NUMBER 6

EDITORIAL 375

ORIGINAL RESEARCH ARTICLES
Kernel-based PLS Regression; Cross-validation and Applications to Spectral Data
F. Lindgren, P. Geladi and S. Wold 377

Adaptive, Global, Extended Kalman Filters for Training Feedforward Neural Networks
T. B. Blank and S. D. Brown 391

A Frequency Deconvolution Procedure Using a Conjugate Gradient Minimization Method with Suitable Constraints
E. Bramanti, M. Bramanti, P. Stiavetti and E. Benedetti 409

Use of Double Windowing, Variable Selection, Variable Ranking and Resolvability Indices in Window Factor Analysis
R. G. Brereton and A. K. Elbergali 423

SHORT COMMUNICATION
PCB Method Applied to Material Design—Computer-aided Synthesis of BiPbSrCaCuOF Superconductor
H.-L. Liu, Y. Chen and N-Y. Chen 439
